Circus Restaurant

Presentation : Group 1

1- Research

Intense research was done to collect data regarding the targeted customers' choices and behaviour. Which actually helped us to provide the best possible solution to our valuable customer.

2- Planning

A good enough number of meetings were done with the client to understand the needs of the client.

3- Prototype Design

The initial design prototype was developed and was shown to the client to get approval to move forward.

4- Development planning

During this phase, we started to plan what programming languages to use, what components we will develop and how the development process will continue.

5- BackLog

In this phase the complete backlog was written in collaboration with all the team members

6- Sprint One

During the " Sprint 1 Phase," we actually assigned the tasks within a team.

7- Sprint Two

Sprint two was also streched a week long to finish the full project development

8- Testing

During this phase we tested the whole project
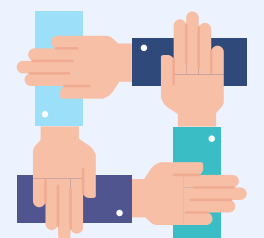

Documentation

The project was documented and proof reading of the documentation during this phase.

Project Life Cycle

Team

Imran , Kanta , Mallika , Cristine & Yuran

Imran Saleem

Research & Presentation Lead

I have lead my team during the Research & Presentation phase . Besides that i have worked on indivisual modules of " Photo Gallery" , "About us" & Home page layout. Also have worked as scrum master once during each sprint
